

TRIM-KUT[®]

- **UNIQUE ONE PIECE DESIGN**
- **NO BACKING PAD**
- **GRINDS, SANDS, LEVELS WELD SEAMS**
- **EXCELLENT RUST/PAINT REMOVER**

GEMTEX[™]
ABRASIVES
A Kaly Company

TRIM-KUT®

Gemtex Trim-Kut® is a revolutionary abrasive disc designed to grind and finish a wide variety of materials faster and cooler than any other abrasive disc available today. The patented process of fusing premium abrasive grains to a durable polymer backing results in a highly versatile grinding tool that requires no backing pad. **Gemtex Trim-Kut®** is readily trimmable to either renew the cutting surface or reduce the diameter.

Gemtex Trim-Kut® discs are available in 3" and 5" for use on a drill or die grinder and 4.5" for use on an angle grinder. These durable discs can be used for grinding or sanding. Their unique one-piece design eliminates the need for backing pads. Another major feature is that the discs can be trimmed. When the outside edge is "loaded" to the point where it is not grinding effectively, trim it off.
