## Aluminum Oxide Discs

"A" Type represents superior grinding performance in a premium aluminum oxide disc. A blend of advanced abrasive alloys and bonding agents delivers superior cutting rates and longer useful life. "A" Type provides optimal value when used in high stock removal applications and where a cool cutting action is required.

"C" Type discs provide overall economy with good performance in an all purpose discs. Containing no halogen producing grinding additives, "C" Type has been designed to excel in a wide variety of applications providing both cost effective stock removal and a safer working environment.
