## Private Label & Private Brand Product Program

Gemtex is the premiere partner in the abrasives private label industry. Private branded products typically have a higher profit margin than resale products. Private branded products also present a consistent brand to your customers and reinforce your advertising efforts.

- Available for most products.
- Low minimum quantities
- Short Lead Times
- Printing of your logo and other information included.

### Product Features

Our products are designed to increase productivity. We serve a sophisticated customer base who demand high quality products and support; they provide us with valuable feedback that helps us develop better products.

### Customer Service

In all of our interactions, we strive to keep you satisfied with our company. Our technical staff is available to discuss your needs and explain our product features. We take great pride in providing good support for your application needs.

### Ordering and Availability

Stock products are available in various quantities and can be shipped within 48 hours.

Gemtex Abrasives was founded in 1975 and became the low cost Resin Fibre Disc producer focusing on the environment. The process and the products are designed around reducing and recycling thereby providing many cost advantages and being environmentally responsible long before it was popular. Gemtex produces and markets a full range of abrasives for grinding, sanding, surface conditioning and finishing. Our products are sold worldwide to the industrial, automotive, aerospace, marine, metal fabrication, natural gas production, petrochemical and retail markets under Gemtex and private label brands made in our manufacturing facility and corporate headquarters located in Toronto, Ontario, Canada.
