Mini Resin Fibre Discs

Mini Resin Fibre Discs are manufactured utilizing a multilayer, heavy duty vulcanized fibre as backing, which is then covered with a resin bond coat specially designed to resist loading, glazing and grain stripping. This bond coat is then covered with mineral abrasive grains formulated for toughness and sharpness. Resin fibre discs are available in many different styles. Variances include the diameter, the arbor hole size, the shape of the disc, and the shape of the arbor hole. Gemtex® has the flexibility to create custom and special discs.

- Best for weld removal, blending and removal of imperfections
- Rapid change system (Type R screw on and Type S twist on fastening systems)
- Outperforms competitive 2-ply and 3-ply cloth backed discs

Rapid Change Holders
Type S Metal Screw-on Locking Style

Rapid Change Holders Type R
