NON WOVEN HAND PADS

NON-WOVEN MATERIAL: BritePrep® non-woven hand pads are manufactured from synthetic fibres bonded together with specially formulated resins and impregnated throughout the web with minerals creating an open three dimensional structure. They are designed for a broad range of jobs including light duty cleaning, polishing, scuffing, finishing and for heavy duty jobs including paint, rust, and corrosion removal. Non-woven products are manufactured from tough synthetic fibres that will not rust. They can be used for dry scuffing and finishing or may be used with water or chemical solvents. They are flexible enough to be used in hard to reach spots, yet strong enough for continuous use. They are produced in a variety of grades ranging from hand cleaning to high-speed machine use.

HAND PADS 6" X 9"

Size	Grit	Case Qty.	P/N
BOX	Tan - Extra Cut	10	23811
	Tan - Extra Cut	20	23819
